SKILLS

- Programming Languages: Python, SQL, JavaScript, HTML, CSS
- AI/ML: PyTorch, Scikit-Learn, LightGBM, Pandas, NumPy, SHAP, Neural Networks
- Frameworks & Toos: Django, Intel OpenVINO, Git/GitHub, Matplotlib, psutil
- Core Competencies: Machine learning pipelines, HPC Profiling, Ensemble Modeling.
- Soft Skills: Logical Reasoning & Problem Solving, Team Collaboration, Analytical Thinking

PROJECTS

HPC-Sim: AI Inference Profiler | *GitHub* *Feb 2026*

- Built a **Python** and **Django** telemetry dashboard utilizing psutil to profile OS-level CPU saturation and inference latency for heavy computer vision workloads (ResNet50).
- Benchmarked standard **PyTorch** against **Intel OpenVINO**, demonstrating a >50% reduction in CPU core usage for edge deployment with only a 4ms latency trade-off.

Financial Fraud & Credit Risk Detection | *GitHub* *Nov 2025*

- Engineered a **Python** ML pipeline to predict severe credit delinquency using a robust Stacking Ensemble of **LightGBM**, Random Forests, and Neural Networks (**scikit-learn**).
- Integrated **SHAP** (SHapley Additive exPlanations) to ensure model interpretability and map the key features driving fraudulent financial behavior.

TRAINING & CERTIFICATION

- Summer Training Program | *IBM*, *Allsoft Solutions* *June-July 2025*
- Certified Essentials Automation Professional. | *Automation Anywhere* *Dec 2025*
- Master Generative AI & Generative AI tools (ChatGPT & more) | *Infosys Springboard* *Sept 2025*
- Computational Theory: Language Principle & Finite Automata Theory | *Infosys Springboard* *Sept 2025*
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | *Infosys Springboard* *Sept 2025*
- Build Generative AI apps and Solutions with No-Code Tools | *Infosys Springboard* *Sept 2025*
- Professional Certification in Computer Communication. | *Coursera* *Oct 2024*

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology – CSE(specialization in AI & ML) **|** *CGPA: 7.14* *Aug 2023-Present*
